Risk and Reward Profile

What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behaviour. Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean ‘risk-free’.

Why is the Fund in this specific category?

The Fund invests mainly in equity securities of companies located in or doing significant business in Uzbekistan. Frontier markets such as Uzbekistan have historically been subject to significant price movements, frequently to a greater extent than equity markets globally. As a result, the Fund's performance can fluctuate considerably over time.

Risks materially relevant not adequately captured by the indicator:

Currency risk: the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

Frontier markets risk: the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues.

Liquidity risk: the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Reduced liquidity may negatively impact the price of the assets.

Market risk: the risk of loss arising from equity price fluctuations or due to exchange control regulations in Uzbekistan. For a full discussion of all the risks applicable to this Fund, please refer to the “Risk Factors” section of the current private offering memorandum of the AFC Umbrella Fund (non-US) and the supplement of the AFC Uzbekistan Fund (non-US).
